WHISTLE with connectors by Lucie Koldova

WE KNOW YOUR NEEDS

Brokis is known for its unique combination of first-class design, excellent quality, and the remarkable craftsmanship of Czech glassmakers. Its achievements and originality of lights are based on a deep understanding of its function and enhanced user experience. Brokis has developed new connectors for increased ease of installation and maintenance, which is a useful feature for owners of restaurants, hotels, and other businesses that need to frequently refresh their interior décor. The Shadows, Puro, Whistle, and Capsula collections are now standard with this connector.

BROKIS

BROKIS is a synthesis of exquisite design, superior quality, and the skill of master artisans continuing the centuries-old Bohemian glassmaking tradition. Its modern lighting collections have achieved international acclaim by combining handblown glass with other refined materials, such as handcrafted wood and metal, in bold compositions that push the boundaries not only of contemporary lighting design but of the technologies applied in production. The Czech family-run premium brand works with select designers from around the world and operates its own historical glassworks southeast of Prague. Each Brokis light is a genuine original and a functional work of art.

BROKIS NEWS 2018

BROKIS

With a comprehensive exhibition of its latest collections, the Czech lighting brand Brokis presents a number of significant technical updates to its captivating lighting design objects.

KNOT TABLE

The Knot Cilindro light will also be available in a new table variant, fitted with a shortened length of cord for easy portability.

KNOT TABLE by Chiaramonte Marin

KNOT FEATURES NEW CORD

The beauty of the design is that each metal finish and glass colour seems perfectly suited to any combination, because in any colour scheme, the light captures the perfection of each element. The iconic robust cord pulled through the centre of the glass has been updated to wound jewellery linen to eliminate fraying.

KNOT PENDANT SMALL by Chiaramonte Marin

KNOT PENDANT SMALL

The Italian elegance of the Knot collection, designed by Chiaramonte Marin, stands for a luxurious display of finely crafted materials, pairing handblown Czech glass with metal and natural fibrous cord. The design combines coarse natural fibre with smooth, transparent blown glass to arouse a contrast as striking as it is dignified. The Knot collection, available in four shapes and different finishes, is being expanded with a Small (S) variant for all lights. The new size comes in response to increasing demand for compact lights suited to smaller interiors and lower ceiling heights.

MONA XL by Lucie Kaldova

MONA XL

A futuristic helmet or yet undiscovered species of jellyfish. The tubular light source boldly permeates the delicate smooth body of the lamp. A passionate love affair of forms.

The Mona collection is based on the concept of penetrating forms. The light source boldly traverses the ample volume of smooth handblown glass to reveal the thrilling tension inherent in the design. The collection's essence, however, lies in its unconventional construction and refined combination of materials. It also boasts dimmable tubular LED light sources, developed by Brokis, each with a different colour temperature. The Mona collection includes floor, suspension, wall, and table lights as well as a new XL size. Specially developed for the luxury Italian furniture brand Poltrona Frau and introduced at Salone del Mobile Milano 2017, the MONA XL will be a standard item in the Mona collection available for purchase through the Brokis Sales Network.
