I N A R C H I

János Héder and Judit Zoltai are well-known when it comes to designer lamps and installations - for good reason. They have not only been the designers of, but the driving force behind the success story of the decade, bringing chandeliers to life for projects all over the World, inspiring and uplifting the thousands of people who see them every day.

Now we decided to realize a completely new aspect of our dreams. Minimalism in its most functional and aesthetically pleasing form.

What have we learned from the multi-year success of Manooi designs?

Simplicity is beautiful.
