“How are you intrigued when you look at something for the first time? We want people to connect with our designs on an emotional level. Ultimately, the first thing you can do is to have a deep connection or appreciation of the object”

Soren Ravn Christensen, Chief Creative Developer

We take the story of Scandinavian design further than ever before by combining aesthetics, simplicity and functionality and infusing it with thoughtful craftsmanship and environmental care. Our designs are deeply rooted in the diverse urban landscape and raw nature surrounding our home in the heart of Copenhagen, Denmark.

We develop innovative packaging solutions to optimise global logistics, reduce storage and transportation costs and to make our designs more accessible and affordable. In the process, we minimise the carbon footprint on our planet and maximise our ethical commitment to environmental responsibility

Having begun our journey in 2008, we have been constantly growing and expanding. Today, UIMAGE is present in over 2000 stores in 40 countries around the world.

**"My experience is that the simplest shapes
frame the beauty of wood the best"**

Asger Risborg Jakobsen, Designer

Put nature in the spotlight with the Chimes lamp

A wooden pendant lamp in its simplest and cleanest form, Chimes brings the Nordic tones of nature into the interior.

A piece of solid oak, combined with a warm LED light source, Chimes is based on the graceful lines that occur from rows of trees in the woods.

The lamp's focused spot makes a good reading light beside a chair or over a dining or coffee table and has a cosy candlelight quality for relaxed evenings in the company of friends.

Dynamic light and shadow with the Ribbon lampshade

With its soft translucent strips interwoven into a delicate organic shape, the Ribbon lampshade is a sculptural object that sends a warm glow of light into the space.

Ribbon's careful construction of curves and folds gives the lampshade a dynamic mix of light and shadow on its surface.

Use Ribbon as a centerpiece in the living room or hang one or two lampshades over the dining table or kitchen island.

Soren Ravn Christensen, Chief Creative Developer

Experience the colours of nature and light with Asteria

Born at the crossroads of design, technology and craftsmanship, the Asteria series of lamps incorporate built-in LED lights into a sleek, minimalist shape.

Casting a bright, lively light, Asteria comes in a seductive and modern six-colour palette to match and complement any interior design, from a contemporary or high design decor to a futuristic or even retro one.

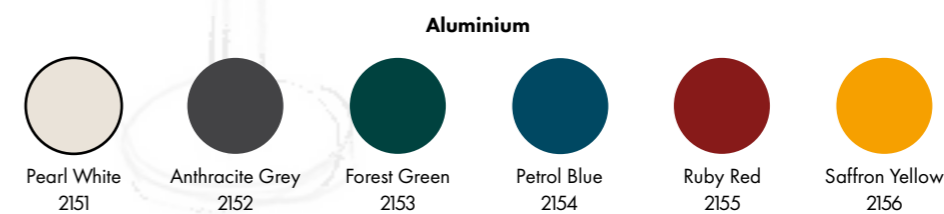

Place it above the coffee table or dinner table; its slim shape will ensure that nothing obscures the view of guests sitting opposite you and its diffused light will ensure a blind-free glow.

“Light as a feather”

Soren Ravn Christensen, Chief Creative Developer

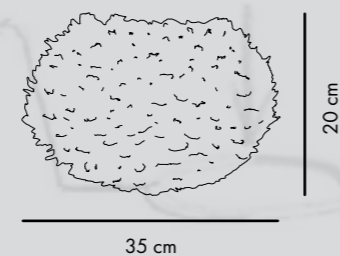

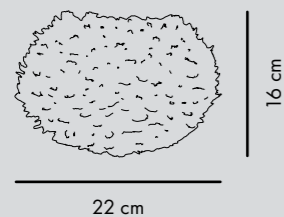

A tactile lampshade that is soft yet full of light

Eos lampshades are available in three different colours and a range of sizes from micro to xx-large.

The Eos lampshades in micro and mini size have an alluring charm perfect for making a subtle yet lasting impression in any interior setting.

Pair an Eos micro or mini with a Tripod light stand to create a centrepiece on the coffee table or desk or to make a cosy corner. For a creative and playful touch, use the Eos micro or mini lampshades as a pendant in pairs or mixed and matched with different sizes and colours of Eos lampshade to make decorative clusters.

Asger Risborg Jacobsen

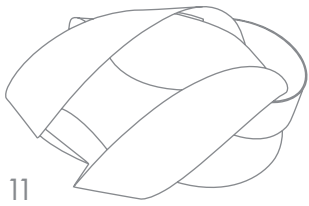

Miklos Leits

At UIMAGE, our designers take inspiration from the distinct nature of the Nordic landscape to create unique designs related to the way we live in an urban setting. Influenced by the design language, colours and materials found around us in Scandinavia, we create a collection that is rooted in our home but designed for everyone.

Follow us on social media for fresh news and inspiration for your own interior design ideas and much more.
